† Crushed in Mackay.

‡ Area exclusive of 2,728 acres cut for fodder.

§ Crushed in Bundaberg.

‡ The tonnage of sugar shown in each district was manufactured by the mills in the districts mentioned, but as the cane of one district is often crushed by a mill in another district the sugar is not necessarily made from the tonnage of cane shown in the preceding column.

N.B.—According to the "Imperial Food Journal," it is proposed to form a Sugar Federation of the British Empire, and steps in that direction are being considered by a committee representing all the sugar-producing and many of the sugar-using interests of the Dominions. At present most of the Empire cane sugar comes from Mauritius, West Indies, British Guiana, Australia, and India, but the total is only about 16 per cent. of the aggregate import of sugar into the United Kingdom. Now that an Empire preference is operative, the time is ripe for an organised effort to encourage the Empire to grow most, if not all, of the sugar refined in Great Britain.
